

1. The text conversation between the girls tells a very different story to the image we saw of Isabel sending that text.

What do you think is a **more accurate** representation of how Isabel is really feeling?

- Text message.
- Body language in the photo.

2. Why do you believe Isabel's body language more than what she wrote in the text message?

3. Draw a line from the photo to the correct **emotion**.

Surprised.

Excited.

Frustrated.

Sad.
